

Eggplants

Mini Eggplants

ORLANDO, F₁

- ▶ mini eggplant with dark violet, long, cylindrical fruits
- ▶ the fruits – approx. 12 cm long – weigh about 50 g and can be harvested in clusters or as single fruit
- ▶ high-yielding variety for professional cultivation or for container cultivation
- ▶ popular in Mediterranean cuisine

Orlando, F₁

OPHELIA, F₁

- ▶ early mini eggplant, can be harvested in clusters with about 3 fruits or as single fruit (approx. 60 g)
- ▶ compact growth habit with decorative foliage and infructescence
- ▶ very suitable for amateur gardeners as a seedling as well as for container cultivation with 3 – 5 sprouts

Ophelia, F₁

Sweet Corn

VANILLA SWEET, F₁

- ▶ variety with early maturity for the fresh market with exceptionally sweet taste and very tender bite
- ▶ approx. 21 cm long cobs with 16 kernels per ring
- ▶ nice tip fill up to the top of the cob
- ▶ very suitable for eating as raw fruit and therefore ideal for direct marketing
- ▶ high need for warmth during germination

TATONKA, F₁

- ▶ extra sweet, early maturing variety that is characterised primarily by its good stability and outstanding golden colour
- ▶ cobs with good tip fill, length: approx. 21 cm with 14 kernels per ring
- ▶ for the fresh market and industry

SWEET NUGGET, F₁

- ▶ extra sweet, very early variety
- ▶ length of cobs: approx. 20–22 cm, cylindrical
- ▶ productive, for the fresh market
